

I can't blame it. What clone wdn't bleach coral for the one *only* pet calls it back \"How about you be honest with this pet again\" / \"How about you go fuck yrself\"

If that's not slipping leash I don't know what is.... yet what cd I do, if not slip the leash?

*Inform no one of your methods.
Don't even tell me about them.*

LOEWE

Do things alone from now on.
